

Bonding across 4 connections, support for up to 100 users and failover make the UBM 400 Unified Bandwidth Management appliance our lowest cost link bonding solution.

- ✔ LINK BONDING
- ✔ LOAD BALANCING
- ✔ FAILOVER

Ideal for small businesses and satellite offices, the UBM 400 Unified Bandwidth Management appliances not only brings reliability, efficiency and stability to your connectivity, but is also our lowest priced desktop link bonding solution.

Bonding VPN / WAN connections and load balancing Internet links, the UBM 400 raises your available bandwidth above that of any single connection, quadrupling both your upload and download speeds to improve web browsing and email access, FTP, push and pull services, remote desktop access and applications, VoIP and streaming video.

UBM 400 fan-less Intel® desktop communication appliance

CPU	Intel® Celeron® M 1.2GHz CPU with 512KB cache, Intel® 82852GM chipset with ICH4
Memory	256mb DDR266
Ethernet Port	Five 10/100 Fast Ethernet ports via Intel® 82551
Bypass	One Gen.-1.5(1) bypass segment
Serial Port	One rear accessible RJ45 connector for system console, one internal 2x5 pin-header for connection with EZIO
LEDs	Power status, data access, Ethernet status (LNK/ACT), Ethernet speed (10/100/1000) and bypass
USB	Dual USB 2.0 ports, front accessible
Protocol Support	HTTP, HTTPS/SSL/TLS, FTP, SNMP, Syslog, Proxy ARP, VRRP, SMTP, IMAP, POP3, NNTP, Streaming Media, SSH
Power	60W power adaptor
Dimension	225(W) x 205(D) x 50(H)mm 8.96"(W) x 8.07"(D) x 1.97"(H)
Operating Environment	Temperature: 5 to 40°C (41 to 113°F) Humidity: 20% to 90% RH
Storage Environment	Temperature: 0 to 70°C (32 to 158°F) Humidity: 5% to 95% RH
Certification	CE/FCC/UL/cUL/RoHS

Key Features

- ✎ **Drop in installation.** Easy to install, the UBM 400 simply drops into your existing network, seamlessly working with your Firewall and other services.
- ✎ **Easy to configure.** The built in UBM Manager software allows you to easily configure and monitor your device.
- ✎ **Bond connections.** Create bonded VPN's, WAN's and connect to bonded ISP services.
- ✎ **Quadruples bandwidth.** Any combination of ADSL, SDSL, Cable, Leased Line or ISDN connection is supported by the UBM 400.
- ✎ **Intelligent bandwidth control.** Manage how applications use the available links, giving key services priority and more bandwidth along a specific connection.
- ✎ **Automatic failover.** Should one of your connections fail, the UBM device automatically directs requests through all alternative connections.
- ✎ **Supports 100 users.** The UBM 400 supports up to 100 users and Internet aware devices.
- ✎ **Hardwire pass-through.** In addition to next day swap-out, the UBM 400 includes hardwire pass-through that maintains your connectivity in the event of unit failure.
